

# Our Children, Our City

## COMMUNITY MEETINGS

What will it take for all of our children, youth and families to thrive in our city? Are there smarter, more effective ways parents, educators, the City, and the broader community can work together to help our kids succeed?

Mayor Edwin Lee, San Francisco Unified School District Superintendent Richard Carranza, and senior leaders from the City and SFUSD invite you to share YOUR opinions and ideas.

*The Children's Fund and Public Education Enrichment Fund, which provide more than \$100 million every year for our city's young people, will soon expire. The community is invited to help shape the future of these investments in San Francisco children and youth at this public meeting.*
