May 2012

Dear Public Art Supporter,

You probably already enjoy the art tile bench which crowns the top of the Lincoln Park Steps at the end of California Street and 32nd Avenue. This first phase of renovations has done much to transform the site and is a preview of the anticipated magnificent whole staircase to be tiled and restored.

This year the city of San Francisco granted \$187,000 from the Community Opportunity Fund to complete the structural renovation of the cracked and broken stairs. But there is one condition. The Friends of Lincoln Park Steps must match the city's generosity with an additional \$250,000 by December 31, 2012. If we can't raise the funds to match the City grant, we forfeit the funding and the opportunity to complete this landmark project. It's that simple.

Please make your tax-deductible donation to ensure that the Friends of Lincoln Park will be able to take advantage of this exceptional opportunity to complete the Lincoln Park Steps. Your gift will enhance community life and make a lasting artistic monument to our city's appreciation for its history, open space and beauty.

There are several giving options and naming opportunities to recognize your family's generosity for generations to come.

To make your donation and for more information please visit our website at <http://friendsoflincolnpark.weebly.com/> or contact our fiscal sponsor, San Francisco Parks Alliance (formally San Francisco Parks Trust), maria@sfparksalliance.org, 415-621-3260 x 101.

Sincerely,

Lincoln Park Steps Committee, Friends of Lincoln Park
